EXPERIENCE

Total Assisted Living

Web Developer (Freelance) and Staff Member | September 2018 - Present

- Built a responsive website using HTML, CSS, and JavaScript. Maintained the website.
- Supervise the facility, making sure that the residents are doing well. As for physical duties I prepare meals, wash dishes, and distribute medication.

360 Marketing - FXBG Hometown Internship

Graphic Designer | January 2021 - August 2021

- Created engaging social media event posts using Adobe Photoshop and Canva; then managed the posts through Facebook and Instagram.
- Attended weekly team meetings, shared thoughts on what we as a team can implement and improve on in order to create engaging posts and attain positive feedback.

Ana's Helping Hands LLC (Freelance)

Visual Designer Freelancer | June 2020- March 2021

- Designed the Ana's Helping Hands logo.
- Managed the Facebook and Instagram social media accounts to manage posts.

PROJECTS

Nucampsite using React and Redux

This react web application is a campsite reservation site that allows users to book campsites. This app uses Redux to store UI layers creating a smooth and user-friendly experience. The app also uses react animations and features from reactstrap.

Memo (chat app) using React

This application uses chat engine API in order to send and recieve messages. It uses the "send message" component which allows the user to send a message to second party and the "Is typing" component which indicates that a specific user is typing.
